

NEWS FROM CLIMABOROUGH

Preliminary Market Consultations are a huge success

CLIMABOROUGH works on an innovative procurement, called innovative partnership, to support 12 cities to improve their capacity to detect and to deploy solutions useful to improve their urban planning and climate neutrality. The first step of this procedure was the call for expression of interest from innovators for 8 cities to co-create the open call that will be published at end of September. The first results show a success beyond expectations with 87 forms received from more than 50 innovators. [\[READ MORE\]](#)

DISCOVER our CITIES

A golden nugget in the north of Greece: Ioannina

All around Europe, while we think of Greece, we always think to a few cities, such as Athens, Thessaloniki, Trikala, Larissa or Patras, but they are for sure not alone. It is a few years that we hear more and more the name of a city that is breaking through the highest innovation projects in Europe: Ioannina. [\[READ MORE\]](#)

A CO2 Budget: the inspiring challenge of Issy-les-Moulineaux

One of the cities partnering CLIMABOROUGH is using a daring data and communitarian strategy to improve its climate mitigation and adaptation strategy. We explain you why and how. [\[READ MORE\]](#)
