

CLIMABOROUGH events around EUROPE

EURESFO - EUROPEAN URBAN RESILIENCE FORUM

Cascais (Portugal), October 18-20

CLIMABOROUGH will support and participate to this event co-hosted by one of our project partners, the City of Cascais. This event, organized by ICLEI and the European Environmental Agency, aims to provide the space and time to discuss a shared vision to implement a European resilient transformation.

CLIMABOROUGH will participate to the round table "[Designing Resilient, Climate-Neutral Cities: District-focused Innovations](#)" with the cities of Milan, Rotterdam, Tessaaloniki and Cascais and Tecnaia.

MAJOR CITIES OF EUROPE CONFERENCE

A loom with a view - Weaving the digital future of communities, cities, and regions.

Prato (Italy), October 25-27

CLIMABOROUGH will be one of the sponsors of the conference organized by the German association of cities [Major Cities of Europe](#). This is a "must be" for anyone interested in the digital and climate transition of cities and other local authorities, as it is one of the major occasions not just to listen to high level speakers and to meet cities, but particularly to create opportunities for engagement and debate, with differing perspectives and emphasis.

CLIMABOROUGH will have a stand and it will be present in 2 different sessions on October 26: the project scientific coordinator Matteo Satta will present our project to the audience, while later our procurement expert Francesco Molinari will animate a workshop around the use of innovative procurement for climate transition.

SMARTCITY EXPO WORLD CONGRESS

SMART CITY EXPO WORLD CONGRESS (SCEWC)

Barcelona, November 6-9

One of the major events in Europe around cities is undoubtedly the Smart Cities Expo World Congress, occasion to meet for all professionals. It is where companies, startups or SMEs meet cities and local authorities to reduce the gap between them.

CLIMABOROUGH will be part of the Major Cities of Europe **stand (A101)** with other co-exhibitor, namely [Smart Dublin](#), the City of Florence, the City of Prato and the Flemish cities association "[V-ICT-OR](#)".

CLIMABOROUGH will be presented to the audience, to explain its tender procedure, on November 7 and 8 at the Central Plaza ([agenda](#)).
