

NEWS FROM CLIMABOROUGH

The results of phase 1 of the CLIMABOROUGH Tender are out

During the whole year 2023, CLIMABOROUGH has worked in collaboration with the cities of Athens, Cascais, Differdange, Grenoble-Alpes, Ioannina, Maribor, Sofia and Torino, to launch a call for tender to ask innovators to propose climate solutions on various fields. ANCI Toscana – the association of Tuscan Municipalities – has published the framework of an innovative procurement procedure, worth 2,4 million euro, which expired on November 30, 2023.

Globally, the tender has been a huge success with more than **100 economic operators proposed 64 applications from 15 countries all over the EU.**

The results of phase 1 of our call for tender are now OUT, the successful applicants are now invited to send us a full technical offer by February 16, 2024 at 23.59 Brussels time.

CLIMAWEBINARS

Join our community of practices and foster urban innovation!

CLIMABOROUGH is organizing several webinars and online workshops dedicated to carbon neutrality, and to the pathways cities are undertaking to bridge the gap between the design and implementation of urban innovations to meet adaptation and mitigation imperatives.

Waste, circularity, energy, and mobility: sign up for our webinars! Are you interested in finding out more? Take the opportunity to discuss with CLIMABOROUGH cities representatives and partners and learn from their experience. Sign up for our three e-meetings open to the public, the first will be held on next February 29. [\[READ MORE\]](#)

DISCOVER our CITIES

Cascais, triggering climate transition via a mix of technology and behaviors

Two of the major treasures of Cascais are its environment and its land, this is why this was the first Portuguese municipality to respond to the Paris Commitment for carbon neutrality by 2050 and one of the most innovative cities in Europe to fight climate change. We explain you how.
