

## NEWS FROM CLIMABOROUGH

### The results of phase 3 of the CLIMABOROUGH Tender expected in May

Since the start of the project, CLIMABOROUGH has worked in collaboration with the cities of Athens, Cascais, Differdange, Grenoble-Alpes, Ioannina, Maribor, Sofia and Torino, to launch a call for tender to ask innovators to propose climate solutions on various fields.

This process is now in phase 3, concerning **31 applications, which will define the final ranking of the offers received.** The applicants had up to April 15, 2024 at 23.59 Brussels time to propose the final version of their technical offer and to propose a financial offer associated to it.

The offers received will now be evaluated and the final ranking will be published in May. Up to 16 offers (2 per city) are expected to be funded.

### CLIMAWEBINARS: join us to learn from cities

The series of our CLIMAWEBINARS, webinars and workshops dedicated to carbon neutrality and to the pathways cities are undertaking to face climate change and its consequential needs for adaptation and mitigation, is going on.

The next webinars "**Mobilizing Communities of practices. Energy and mobility**" will focus the engagement of individuals, groups and organizations in the deployment of innovative and disruptive solutions as key for their success in the long run. We will showcase experiences, projects plans and strategies of 5 cities of CLIMABOROUGH (Athens, Grenobles-Alpes Metropole, Differdange, Turin) and 2 guest cities (Florence and Smart Dublin) around the fields of energy and mobility to reflect upon the role behavioral change and citizens' engagement. This webinar will be held on April 18. [Register to the webinar.](#)

Later, on May 16, we will hold another webinar about circular economy and its connection to climate change and called "**Connecting the dots of circularity**". This will be focused on experiences of cities to shift from waste management to circular economy. [Register to the webinar.](#)

## CLIMABOROUGH INSIGHTS

### Grenoble Alpes Metropole, a metropolis committed to climate neutrality

Grenoble Alpes Metropole, a so called "urban agglomeration", is composed of 49 cities, towns and villages around the area of Grenoble, situated in Isère, at the heart of the French Alps. Grenoble Alpes Métropole, one of the European "100 Climate neutral and Smart Cities, has set a very ambitious strategy to achieve climate neutrality. We explain you their challenges, policies and next goals.

### Krk, on the right way towards pollution minimisation

The city of Krk represents an administrative, business and educational center of the island inhabitants, while as far as tourism is concerned, Krk is a very attractive and picturesque summer holiday spot which above all offers the feeling of elegance and historical heritage on which the new and diverse tourism offer is based. Nowadays, the city of Krk represents one of the most desirable tourism destinations and was already several years in a row awarded with the prestigious title of being the best small city to live in throughout Croatia.
