As part of the CLIMABOROUGH project, Prijedor wants to set an example.

Prijedor is located in the north-western part of Bosnia and Herzegovina, the entity of the Republic of Srpska

According to the latest census conducted in 2013, in the area of Prijedor municipality were registered 97.588 inhabitants

About the waste and waste management in our city

There are currently no real recycling centers in our city. Within the company Komunalne usluge a.d. There is a mini plant in Prijedor, where cardboard, PET packaging and other plastics are brought in and pressed (baled).

Local management waste plan 2022-2027

About the waste and waste management in our city

There are 15 green islands in the area of the City, as a result of the project, which was realized in cooperation with the Swedish organization SIDA

With this project, we would like to influence the awareness of citizens (change the mindset)
