

## Follower Cities CALL FOR TENDER

CLIMABOROUGH will launch up to 25 socio-technical pilots through a calendar of two rounds of federated public procurement of innovation calls, managed by ANCI Toscana Open Calls to address the needs of 11 European cities.

After the first round, launched in 2023, 8 cities, **Athens, Cascais, Differdange, Grenoble-Alpes, Ioannina, Maribor, Sofia and Turin**, could select 15 solutions for an overall budget of about 1.800.000 euro that are now being deployed.

Following this first call, CLIMABOROUGH is publishing a new tender **to provide to 5 European cities the services and products corresponding to their needs**.

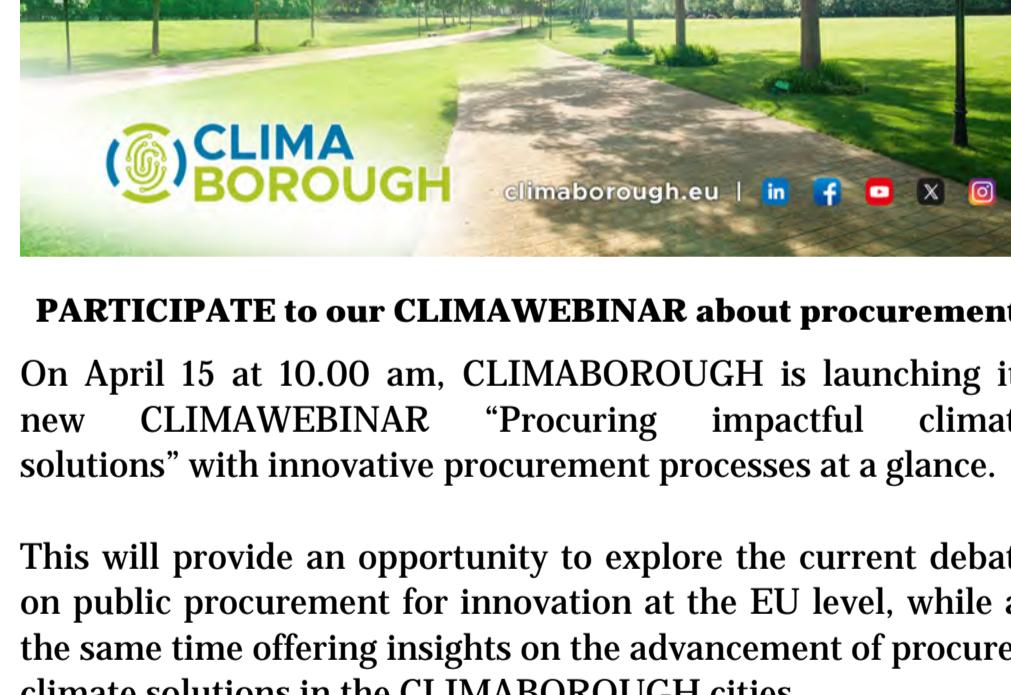

To this end, ANCI Toscana has launched a call for tender using the instrument of the Innovation Partnership and structured in 5 distinct lots, each worth **240.000 euro** to be assigned to 2 distinct economic operators.

CLIMABOROUGH has worked in collaboration with these 5 follower cities, **Prijedor, Pilsen, Issy-les-Moulineaux, Sofia and Grenoble-Alpes Métropole**, to replicate the process already completed by the above mentioned cities and to ask innovators to propose climate solutions on various fields.

The call for tender is now open and it will close its phase 1 by **May 9 at 23.59 CEST**.

## Our PROCUREMENT WEBINARS

### PARTICIPATE at our Call for tender - Orientation webinar

On April 3 at 11.00 am, CLIMABOROUGH will organize an online workshop to explain its call for tender.

The purpose of this orientation workshop is to inform potential applicants about the Call for Tenders regulations.

It will also be the occasion to meet our cities and ask them any questions about their challenges.

To participate, please register to the eventbrite dedicated page, see the button below.

### PARTICIPATE to our CLIMAWEBINAR about procurement

On April 15 at 10.00 am, CLIMABOROUGH is launching its new CLIMAWEBINAR "Procuring impactful climate solutions" with innovative procurement processes at a glance.

This will provide an opportunity to explore the current debate on public procurement for innovation at the EU level, while at the same time offering insights on the advancement of procured climate solutions in the CLIMABOROUGH cities.

Participants will be highlighted on how public sector bodies and agencies can successfully work with businesses, charities and R&D institutions to deliver relevant, replicable and transferable solutions that proactively tackle climate change issues in our cities.

To participate, please register to the eventbrite dedicated page, see the button below.
