

## THE CLIMABOROUGH NEWSLETTER

### The results of phase 2 of the Follower Cities Call for Tender are out

CLIMABOROUGH, in close collaboration with the cities of **Prijedor, Grenoble-Alpes, Sofia, Pilsen, and Issy-les-Moulineaux**, recently launched its second Call for Tender. This initiative, coordinated by **ANCI Toscana**, invited innovators across Europe to propose solutions in key areas of climate action.

The call is structured around an **innovative public procurement framework**, with a total value of **€1.2 million**.

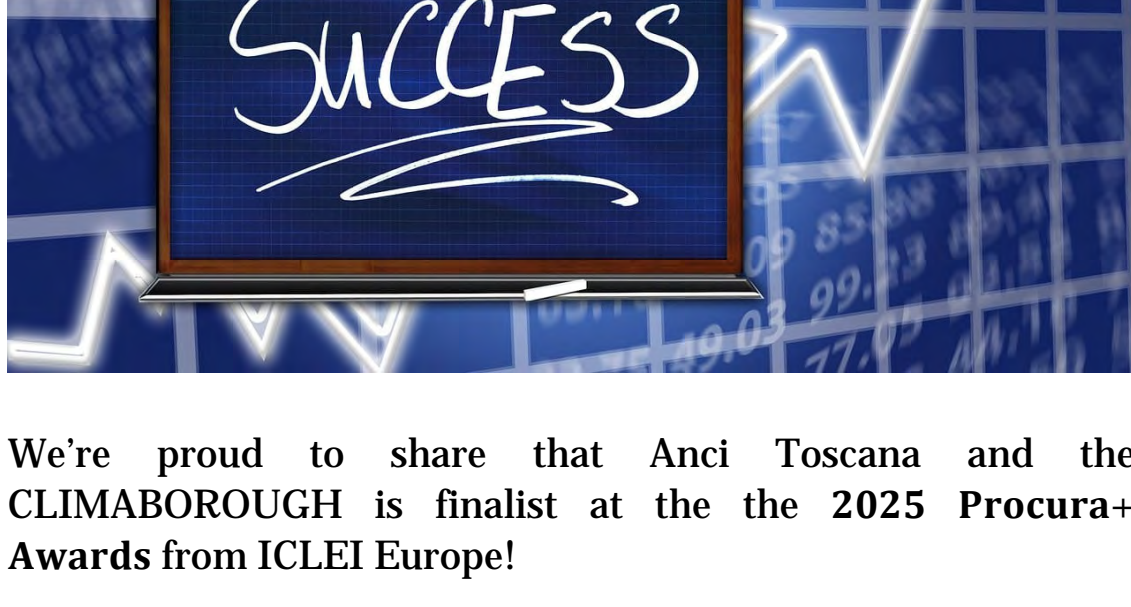

**Phase 2 of this procedure closed on August 29 and 23 full applications were received** — a great signal of the enthusiasm and creativity of Europe's innovation ecosystem.

We're excited to announce that the **results of this phase** are now **officially available**. All **successful applicants** have been **invited to submit a full technical offer by October 31 at 23:59 (Brussels time)**.

### CLIMABOROUGH Procurement process finalist at the Procura+ Awards

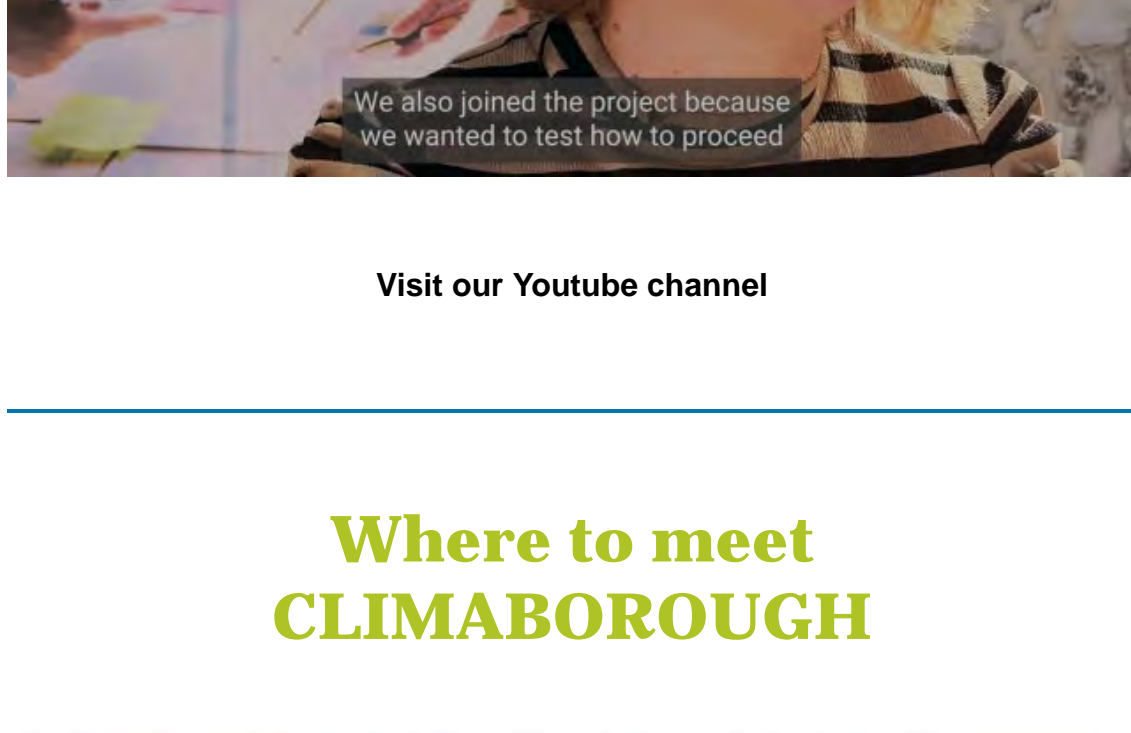

We're proud to share that Anci Toscana and the CLIMABOROUGH is finalist at the the **2025 Procura+ Awards** from ICLEI Europe!

This recognition highlights our joint efforts in driving innovative, sustainable, and climate-resilient public procurement across European cities. Through CLIMABOROUGH, we're working hand-in-hand with municipalities to test and scale new solutions that make our urban environments smarter, greener, and more inclusive.

On October 8, **ANCI Toscana will be in Middelburg (The Netherlands) for the final results**. Cross your fingers for us!

### Where to meet CLIMABOROUGH

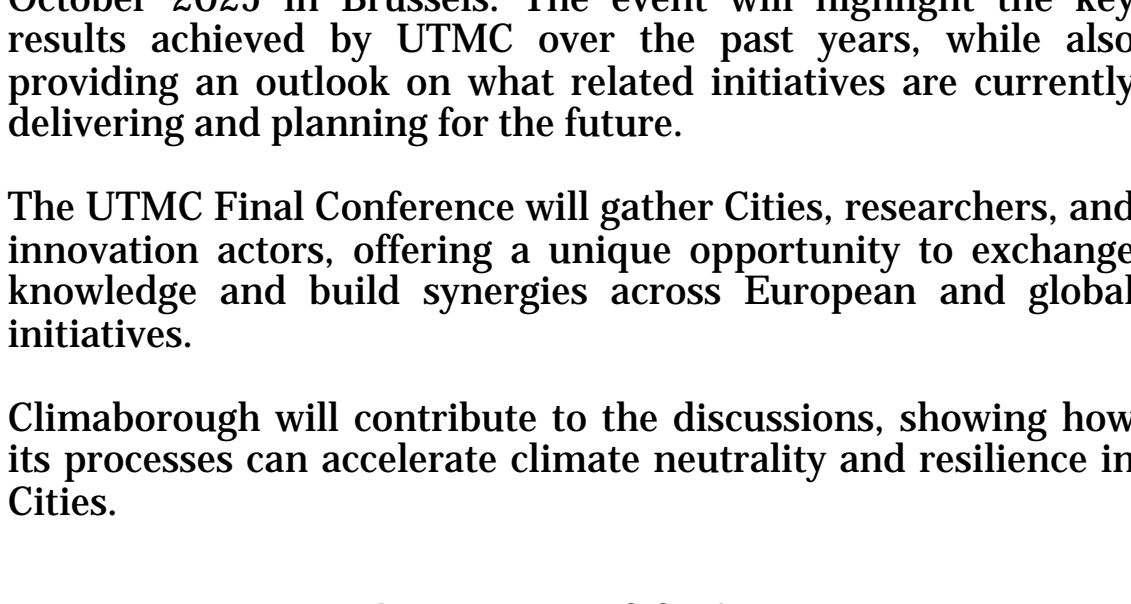

We are proud to announce that Issy-les-Moulineaux, a partner city of Climaborough, will host the **Major Cities of Europe Conference on 9–10 October 2025**.

The conference is a key gathering for city leaders, policymakers, and innovators who are driving digital transformation, sustainability, and resilience in Europe's urban environments. By bringing together experts and practitioners from across the continent, the event provides a platform to exchange knowledge, explore best practices, and shape the future of our cities.

As an active partner of Climaborough, Issy-les-Moulineaux continues to demonstrate its commitment to innovation and climate neutrality, making it a fitting host for this year's edition of the conference.

We are pleased to share that the Final Conference of the **Urban Transitions Mission Centre (UTMC)** will take place on 17 October 2025 in Brussels. The event will highlight the key results achieved by UTMC over the past years, while also providing an outlook on what related initiatives are currently delivering and planning for the future.

The UTMC Final Conference will gather Cities, researchers, and innovation actors, offering a unique opportunity to exchange knowledge and build synergies across European and global initiatives.

Climaborough will contribute to the discussions, showing how its processes can accelerate climate neutrality and resilience in Cities.

On 3 November in Barcelona, the **UP2030 project** will host its final event **Cities in Action: Shaping Just, Resilient & Climate Neutral Urban Planning**.

The event will gather urban planners, city leaders, policymakers and project partners from across Europe to exchange insights and practical solutions for climate-neutral urban transformation. Participants will explore over 20 tools and approaches developed in collaboration with 11 pilot cities, with a focus on inclusive governance, policy innovation and scalable impact.

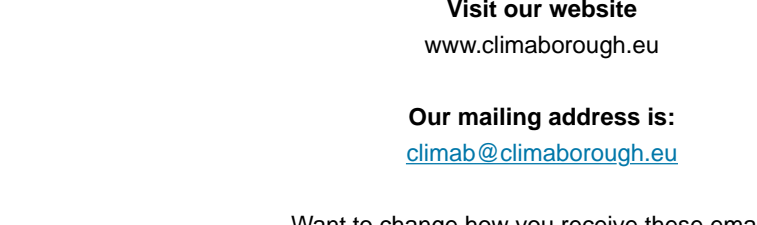

CLIMABOROUGH will have a dedicated session in the programme to showcase how its innovative procurement process can trigger climate innovation in cities.

## SMARTCITY EXPO WORLD CONGRESS

4 - 6 NOVEMBER 2025

BARCELONA

We are pleased to announce that **Climaborough** will be present at this year's **Smart City Expo World Congress**, taking place in **Barcelona from 4–6 November 2025**. This is one of the most important global events dedicated to urban innovation and sustainable transformation.

You will find us at the **European Commission Representation Booth**, where Climaborough will showcase its role in fostering climate-neutral and resilient cities. Through collaboration, experimentation, and knowledge sharing, the project supports municipalities and stakeholders in testing and scaling innovative solutions that address today's most pressing urban challenges.

We look forward to engaging with partners and visitors at the European Commission Booth — and to sharing how Climaborough is helping cities lead the way towards a sustainable future.
